Preface xxvii

Contributors xxviii

Part I: Introduction to Dermatology

1 Advice for Preclinical and Postclinical Years 3

Viktoria Taranto, Jacqueline Nikakis, Ghena Krđi, Darianne Zimmer, Gina Bash, Shari R. Lipner, Robert T. Brodell, and Mairead Moloney

1.1 Setup for Success 3	1.4 Additional Extracurricular Activities 6
1.1.1 Curriculum Vitae/Resume 3	1.4.1 Conferences 6
1.1.2 Mentorship 3	1.4.2 Volunteering 6
1.2 Grades 3	1.4.3 Shadowing 6
1.2.1 Preclinical Medical School Examinations 3	1.5 Rotations 7
1.2.2 Rotation Grading and Examinations 3	1.5.1 Core Rotations (Third Year) 7
1.2.3 Standardized Medical Licensing Examinations (USMLE/NBOME) ... 3	1.5.2 Elective Rotations (Third Year/ Fourth Year) 7
1.2.4 Honor Societies 4	1.5.3 Audition Rotations 7
1.3 Research 4	1.6 Residency Application 7
1.3.1 How to Find Research 4	1.7 Special Considerations 7
1.3.2 Types of Research 4	1.7.1 No Home Dermatology Program 7
1.3.3 Publishing/Presenting Research 4	1.7.2 DO Applications (Doctor of Osteopathic Medicine) 8
1.3.4 Research Years 5	

2 Tips for a Successful Match 9

Viktoria Taranto, Jacqueline Nikakis, Ghena Krđi, Darianne Zimmer, Gina Bash, Shari R. Lipner, Robert T. Brodell, and Mairead Moloney

2.1 Dermatology Applicant 9	2.3 Medical Licensing Examinations 9
2.1.1 Characteristics of a Successful Applicant 9	2.3.1 United States Medical Licensing Examination 9
2.2 Mentorship 9	2.3.2 The Comprehensive Osteopathic Medical Licensing Examination ... 9
	2.3.3 Examination Scores 10

2.4	Audition Rotations	10	2.6	Personal Statement	11
2.4.1	Planning/Scheduling Audition Rotations.....	10	2.7	Letters of Recommendation ...	12
2.4.2	What to Expect on Audition Rotations.....	10	2.8	Interviews	12
2.5	Electronic Residency Application Service Residency Application	11	2.8.1	The Interview.....	12
2.5.1	ERAS: What Is It?.....	11	2.8.2	Responding to the Interview Invite	12
2.5.2	ERAS Components.....	11	2.8.3	Preparing for the Interview	12
2.5.3	ERAS Timeline	11	2.8.4	Interview Day.....	13
			2.8.5	After the Interview	13

Part II: Basic Principles and Background

3	Overview of Basic Science	17			
	<i>Khiem A. Tran, Alanna Davis, Jennifer R. Good, Lauren Gawey, Swetha Atluri, and Henry K. Wong</i>				
3.1	Introduction	17	3.3	Immunology	18
3.2	Molecular Biology	17			
3.2.1	Gene Therapy.....	18			
4	Skin, Hair, and Nail Anatomy and Physiology	21			
	<i>Alyssa Abdelnour and Geoffrey A. Potts</i>				
4.1	Introduction	21	4.3.1	Hair Structure	23
4.2	Skin Structure and Physiology .	21	4.3.2	Hair Growth Cycle.....	24
4.2.1	Skin Structure	21	4.3.3	Types of Hair.....	24
4.2.2	Functions of the Skin	21	4.4	Nail Anatomy and Physiology	24
4.2.3	Melanocytes and Pigmentation... .	21	4.4.1	Structure.....	24
4.2.4	Wound Healing	22	4.4.2	Function	25
4.3	Hair Anatomy and Physiology ..	23			
5	Common Dermatologic Workups, Differentials, and Orders	26			
	<i>Alyssa Abdelnour and Geoffrey A. Potts</i>				
5.1	Introduction	26	5.2.1	Dermatitis.....	26
5.2	Workup, Differential Diagnoses, and Orders for Common Dermatological Conditions	26	5.2.2	Atopic Dermatitis (Eczema).....	28
			5.2.3	Psoriasis	28
			5.2.4	Acne Vulgaris.....	28
			5.2.5	Rosacea	29

5.2.6	Skin Cancers	29	5.3	Conclusion	30
5.2.7	Cutaneous Infections	30			

Part III: General and Complex Medical Dermatology

6 Papulosquamous Disorders 35

Rithi J. Chandy, Diem-Phuong D. Dao, Andrew Fultz, and Steven R. Feldman

6.1	Psoriasis	35	6.3.2	Diagnostic Approach for Cutaneous Lichen Planus	36
6.1.1	Key Clinical Findings in Psoriasis	35	6.3.3	Treatment Options for Cutaneous Lichen Planus	36
6.1.2	Diagnostic Approach for Psoriasis	35	6.3.4	Pertinent Facts or Medical Associations for Cutaneous Lichen Planus	36
6.1.3	Treatment Options for Psoriasis	35			
6.1.4	Pertinent Facts or Medical Associations for Psoriasis	35	6.4	Pityriasis Rosea	36
6.2	Seborrheic Dermatitis	35	6.4.1	Key Clinical Findings in Pityriasis Rosea	36
6.2.1	Key Clinical Findings in Seborrheic Dermatitis	35	6.4.2	Diagnostic Approach for Pityriasis Rosea	37
6.2.2	Diagnostic Approach for Seborrheic Dermatitis	35	6.4.3	Treatment Options for Pityriasis Rosea	37
6.2.3	Treatment Options for Seborrheic Dermatitis	36	6.4.4	Pertinent Facts or Medical Associations for Pityriasis Rosea	37
6.2.4	Pertinent Facts or Medical Associations for Seborrheic Dermatitis	36	6.5	Cutaneous Lupus Erythematosus	37
6.3	Cutaneous Lichen Planus	36	6.5.1	Key Clinical Findings in Cutaneous Lupus Erythematosus	37
6.3.1	Key Clinical Findings in Cutaneous Lichen Planus	36	6.5.2	Diagnostic Approach for CLE	37
			6.5.3	Treatment Options for CLE	37

7 Approach to Eczematous Disorders 39

Heli A. Patel, Linh Tran, Aashka Suvarnakar, and Steven R. Feldman

7.1	Atopic Dermatitis	39	7.2	Contact Dermatitis	40
7.1.1	Pathogenesis for Atopic Dermatitis	39	7.2.1	Key Clinical Findings in Contact Dermatitis	40
7.1.2	Key Clinical Findings for Atopic Dermatitis	39	7.2.2	Pathogenesis for Contact Dermatitis	40
7.1.3	Diagnostic Approach for Atopic Dermatitis	39	7.2.3	Diagnostic Approach for Contact Dermatitis	40
7.1.4	Treatments for Atopic Dermatitis	39	7.2.4	Treatment Options for Contact Dermatitis	40
7.1.5	Pertinent Facts or Medical Associations	40			

7.2.5	Pertinent Facts or Medical Associations for Contact Dermatitis.	41	7.5.2	Pathogenesis for Nummular Eczema	42
7.3	Dyshidrotic Eczema (Acute Palmoplantar Eczema).	41	7.5.3	Diagnostic Approach for Nummular Eczema	42
7.3.1	Key Clinical Findings in Dyshidrotic Eczema	41	7.5.4	Treatment Options for Nummular Eczema	42
7.3.2	Pathogenesis for Dyshidrotic Eczema	41	7.5.5	Pertinent Facts or Medical Associations for Nummular Eczema	42
7.3.3	Histopathology for Dyshidrotic Eczema	41	7.6	Stasis Dermatitis.	43
7.3.4	Diagnostic Approach for Dyshidrotic Eczema.	41	7.6.1	Pathogenesis for Stasis Dermatitis	43
7.3.5	Management for Dyshidrotic Eczema	41	7.6.2	Key Clinical Findings for Stasis Dermatitis.	43
7.4	Lichen Simplex (Neurodermatitis).	41	7.6.3	Diagnostic Approach for Stasis Dermatitis.	43
7.4.1	Key Clinical Findings in Lichen Simplex.	41	7.6.4	Treatment for Stasis Dermatitis. . .	43
7.4.2	Pathogenesis for Lichen Simplex. . .	41	7.6.5	Pertinent Facts or Medical Associations	43
7.4.3	Diagnostic Approach for Lichen Simplex.	42	7.7	Asteatotic Eczema	43
7.4.4	Treatment Options for Lichen Simplex.	42	7.7.1	Pathogenesis of Asteatotic Eczema	43
7.4.5	Pertinent Facts or Medical Associations for Lichen Simplex.	42	7.7.2	Key Clinical Findings and Presentations of Asteatotic Eczema	43
7.5	Nummular Eczema (Discoïd Eczema).	42	7.7.3	Diagnostic Approach of Asteatotic Eczema	43
7.5.1	Key Clinical Findings in Nummular Eczema	42	7.7.4	Treatments of Asteatotic Eczema	44
			7.7.5	Pertinent Facts or Medical Associations of Asteatotic Eczema	44
8	Vesiculobullous Disorders	46			
	<i>Adam H. Krouse, Robin H. Wang, and Jodi J. Speiser</i>				
8.1	Introduction	46	8.3.2	Pemphigus Vegetans	48
8.2	Subcorneal Disorders.	46	8.3.3	Paraneoplastic Pemphigus.	48
8.2.1	Pemphigus Foliaceus.	46	8.4	Subepidermal Disorders	48
8.3	Intraepidermal Disorders	46	8.4.1	Epidermolysis Bullosa Acquisita	48
8.3.1	Pemphigus Vulgaris.	46	8.4.2	Porphyria Cutanea Tarda	48
			8.4.3	Bullous Pemphigoid	48

8.4.4	Dermatitis Herpetiformis	48	8.4.6	Stevens–Johnson Syndrome/Toxic Epidermal Necrolysis	49
8.4.5	Linear Immunoglobulin A	49			

9 Lichenoid and Interface Dermatoses 50

Brandon Zelman, Austin Casillas, and Jodi J. Speiser

9.1	Introduction	50	9.5.2	Clinical Manifestations and Diagnostic Criteria	52
9.2	Lichen Planus	50	9.5.3	Histology	52
9.2.1	Epidemiology/Genetics	50	9.5.4	Surveillance and Treatment	52
9.2.2	Clinical Manifestations and Diagnostic Criteria	50	9.6	Pityriasis Lichenoides Et Varioliformis Acuta	52
9.2.3	Histology	50	9.6.1	Epidemiology/Genetics	52
9.2.4	Surveillance and Treatment	50	9.6.2	Clinical Manifestations and Diagnostic Criteria	53
9.3	Lichenoid Drug Eruption	50	9.6.3	Histology	53
9.3.1	Epidemiology/Genetics	50	9.6.4	Surveillance and Treatment	53
9.3.2	Clinical Manifestations and Diagnostic Criteria	52	9.7	Erythema Multiforme	53
9.3.3	Histology	52	9.7.1	Epidemiology/Genetics	53
9.3.4	Surveillance and Treatment	52	9.7.2	Clinical Manifestations and Diagnostic Criteria	53
9.4	Lichen Nitidus	52	9.7.3	Histology	53
9.4.1	Epidemiology/Genetics	52	9.7.4	Surveillance and Treatment	53
9.4.2	Clinical Manifestations, Diagnostic Criteria	52	9.8	Fixed Drug Reaction	53
9.4.3	Histology	52	9.8.1	Epidemiology/Genetics	53
9.4.4	Surveillance and Treatment	52	9.8.2	Clinical Manifestations and Diagnostic Criteria	53
9.5	Lichen Striatus	52	9.8.3	Histology	53
9.5.1	Epidemiology/Genetics	52	9.8.4	Surveillance and Treatment	54

10 More than Meets the Eye: A Closer Look at Urticarias and Erythemas 55

Delaney D. Ding and Scott A. Elman

10.1	Urticaria and Angioedema	55	10.4	A Note on “Erythema” in Skin of Color	62
10.2	Autoinflammatory Diseases	55			
10.3	Erythema	61			

11	Purpuras and Vasculitis/Vasculopathy	82		
	<i>Catherine Grace Hobayan and Abraham Korman</i>			
11.1	Hematologic Causes	82	11.5	Pigmented Purpuric Dermatoses (Capillaritis)
				82
11.1.1	Disseminated Intravascular Coagulation	82	11.6	Vasculitis
				83
11.1.2	Heparin-Induced Thrombocytopenia/Thrombosis ..	82	11.6.1	Small Vessel (Also Known as Leukocytoclastic Vasculitis)
				83
11.2	Platelet-Related Causes	82	11.6.2	Small/Medium Vessel (Mixed)
				83
11.2.1	Immune Thrombocytopenic Purpura	82	11.6.3	Medium Vessel
				84
11.2.2	Thrombotic Thrombocytopenic Purpura	82	11.6.4	Large Vessel
				84
			11.6.5	Variable Vessel
				84
11.3	Senile/Actinic Purpura	82	11.7	Vasculopathy/Retiform Purpura
				84
11.4	Purpura Fulminans	82	11.7.1	Livedoid Vasculopathy
				84
			11.7.2	Calciophylaxis
				85
			11.7.3	Cholesterol Embolization
				85
12	Adnexal and Pigmentary Disorders of Skin	86		
	<i>Therese Limbana, Tarandeep Kaur, and Ata S. Moshiri</i>			
12.1	Examples of Hair Follicle Tumors	86	12.3.1	Hypopigmentation Disorders
				88
			12.3.2	Hyperpigmentation Disorders
				90
12.2	Sweat Gland Tumors	87		
12.3	Pigmentary Disorder	88		
13	Neutrophilic, Eosinophilic, and Pregnancy Dermatoses	94		
	<i>Therese Limbana, Clarence Sams, and Shoni Rozenberg</i>			
13.1	Introduction	94	13.3	Eosinophilic Dermatoses
				96
13.2	Neutrophilic Dermatoses	94		
14	Granulomatous and Histiocytic Disease	100		
	<i>Ashima Agarwal</i>			
14.1	Autoimmune	100	14.4	Neoplasms
				103
14.2	Infectious	102	14.5	Reactions
				103
14.3	Inflammatory	103		

15	Cutaneous Manifestations of Connective Tissue Disorders	105
	<i>Jeffrey Chen and Sonal Choudhary</i>	
15.1	Introduction to Connective Tissue Diseases in Dermatology	105
15.2	Epidemiology of Systemic Lupus Erythematosus	105
15.3	Dermatological Aspects of Systemic Lupus Erythematosus	105
15.3.1	Acute Cutaneous Lupus Erythematosus	105
15.3.2	Subacute Cutaneous Lupus Erythematosus	106
15.3.3	Chronic Cutaneous Lupus Erythematosus	107
15.4	Treatment for Cutaneous Lupus Erythematosus	107
15.5	Dermatomyositis Clinical Subtypes	108
15.5.1	Subtypes and Clinical Differences	108
15.5.2	Dermatomyositis Diagnostic Criteria.....	108
15.6	Dermatomyositis Histopathological Findings	108
15.7	Dermatomyositis Treatment and Management	108
15.8	Other Connective Tissue Diseases with Cutaneous Manifestations	109
15.9	Collaborative Approach in Dermatology	109
16	Understanding Fibrosis: The Pathophysiology of Sclerosing Skin Disorders	115
	<i>Jeffrey Chen and Sonal Choudhary</i>	
16.1	Overview of Sclerosing Disorders in Dermatology	115
16.1.1	Epidemiology and Clinical Relevance.....	115
16.1.2	Pathophysiological Insights	115
16.1.3	Cellular Mechanisms of Fibrosis... ..	116
16.1.4	Rare Scleroderma-Like Disorders.....	116
16.2	Case Studies in Connective Tissue Diseases and Sclerosing Disorders	116
16.2.1	Cancer Risk in Connective Tissue Disorders and Sclerosing Diseases.....	116
16.2.2	Scleroderma after Cosmetic Surgery	117
16.2.3	Nailfold Capillaroscopy in Autoimmune and Sclerosing Connective Tissue Disorders.....	117
16.2.4	Concluding Perspectives	117
17	Metabolic Health and Dermatology: Interpreting Cutaneous Signals	119
	<i>Jeffrey Chen and Sonal Choudhary</i>	
17.1	Introduction to Metabolic Syndrome in Dermatology	119
17.1.1	Metabolic Syndrome and Its Impact on Dermatology	119

17.2	A Brief Primer on Cutaneous Porphyrrias	120	17.3	Clinical Implications and Management of Metabolic Disorders in Dermatology	121
17.2.1	The Spectrum of Cutaneous Porphyrrias: Clinical Presentations and Therapies.	120	17.3.1	Role of Dermatologists in Early Detection and Management.	121
18	Beneath the Skin: Exploring Systemic Diseases through Dermatological Symptoms	123			
	<i>Jeffrey Chen and Sonal Choudhary</i>				
18.1	Systemic Inflammatory Diseases and Their Impact on Skin	123	18.1.1	Role of Systemic Diseases in Dermatological Conditions	123
19	Dermal Connective Tissue Disorders	129			
	<i>Therese Limbana, Corinne Rutkowski, and Charisse McCall</i>				
19.1	Heritable Disorders of the Connective Tissues	129	19.2	Acquired Disorders of the Connective Tissues	131
			19.3	Conclusion	133
20	Infectious Disorders	135			
	<i>Shaveonté D. Graham and Heli A. Patel</i>				
20.1	Bacterial Infections	135	20.3	Fungal Infections	137
20.1.1	Key Clinical Findings	135	20.3.1	Key Clinical Findings	137
20.1.2	Diagnostic Approach	135	20.3.2	Diagnostic Approach	138
20.1.3	Treatment Options	135	20.3.3	Treatment Options	138
20.1.4	Pertinent Facts or Medical Associations	136	20.3.4	Pertinent Facts or Medical Associations	138
20.2	Viral Infections	136	20.4	Parasitic Infections	138
20.2.1	Key Clinical Findings	136	20.4.1	Key Clinical Findings	138
20.2.2	Diagnostic Approach	136	20.4.2	Diagnostic Approach	139
20.2.3	Treatment Options	136	20.4.3	Treatment Options	139
20.2.4	Pertinent Facts or Medical Associations	137	20.4.4	Pertinent Facts or Medical Associations	139
21	Neurocutaneous Disorders	140			
	<i>Thanchanok Chairasit, Victor A. Barragan, and Jodi J. Speiser</i>				
21.1	Neurofibromatosis Type 1	140	21.2	Neurofibromatosis Type 2	140
21.1.1	Prevalence and Genetics	140	21.2.1	Prevalence and Genetics	140
21.1.2	Cutaneous Manifestations	140	21.2.2	Cutaneous Manifestations	140

21.3	Tuberous Sclerosis Complex	140	21.5.1	Prevalence and Mechanism	143
21.3.1	Prevalence and Genetics	140	21.5.2	Cutaneous Manifestations	143
21.3.2	Cutaneous Manifestations	140	21.6	Scleroderma	143
21.4	Systemic Lupus Erythematosus	140	21.6.1	Prevalence and Mechanism	143
21.4.1	Prevalence and Mechanism	140	21.6.2	Localized Cutaneous Manifestations	143
21.4.2	Cutaneous Manifestations	143	21.6.3	Systemic Cutaneous Manifestations	143
21.5	Dermatomyositis	143			
22	Cutaneous Manifestations of Physical Agents, Insults, and Injuries	147			
	<i>Delaney D. Ding and Eva Rawlings Parker</i>				
22.1	Substance Use and Bodily Injury	147	22.2	Climate and Environmental Risk Factors	147
22.1.1	Substance Use	147	22.2.1	Climate and Environmental Factors	153
22.1.2	Physical and Sexual Abuse	147	22.2.2	Vulnerabilities and Disparities in Climate Change and Environmental Risk	153
22.1.3	Sports-Related Conditions	147			
23	Hair and Nail Disorders	163			
	<i>Therese Limbana, Aleia Boccardi, Nicole Sardella, and Suzanne Friedler</i>				
23.1	Hair Disorders	163	23.2	Nail Disorders	167
23.1.1	Nonscarring Alopecia	163			
23.1.2	Scarring Alopecia	166			
24	Mucosal Disorders	171			
	<i>Catherine Barker and Andrea D. Maderal</i>				
24.1	Benign Conditions of the Oral Mucosa	171	24.4.3	Drug-Related Mucosal Changes	173
24.2	Mucosal Pigmentary Lesions	171	24.5	Genetic/Syndromic Manifestations in the Oral Mucosa	173
24.3	Traumatic Mucosal Lesions	171	24.6	Infectious Insults to the Oral Mucosa	173
24.4	Inflammatory Disorders of the Oral Mucosa	171	24.7	Premalignant and Malignant Conditions of the Oral Mucosa	174
24.4.1	Autoimmune Disorders of the Oral Mucosa	173			
24.4.2	Allergic Disorders of the Oral Mucosa	173			

25	Cutaneous Manifestations of Internal Diseases	176
	<i>Lulu L. Wong and Frederico Galar</i>	

25.1	Cutaneous Manifestations of Internal diseases	176	Suggested Readings	186

Part IV: Pharmacology

26	Pharmacology	189
	<i>Juliette Nutovits, John Goncalves, Daniel Fischer, and Suzanne Sirota Rozenberg</i>	

26.1	Overview of Dermatological Pharmacology	189	26.9	Antihistamines	191
26.2	Dermal Pharmacokinetics	189	26.10	Keratolytics	191
26.3	Principles of Topical Therapy	189	26.11	Melanizing/Demelanizing Agents	193
26.4	Topical Steroids (Glucocorticoids)	189	26.12	Drugs Affecting Hair Growth	193
26.5	Topical Retinoids	190	26.13	Botulinum Toxins	193
26.6	Topical Vitamin D Analogs	190	26.13.1	Immunomodulatory Agents (Nonsteroidal)	194
26.7	Actinic Keratosis	191			
26.8	Antimicrobials	191			

27	UV Therapies in Dermatology	197
	<i>Jeffrey Chen and Joe K. Tung</i>	

27.1	Introduction to UV Therapy	197	27.2.3	UV Therapies for Cutaneous T-Cell Lymphoma/Mycosis Fungoides	200
27.1.1	Background and Evolution of UV Therapy in Dermatology	197	27.2.4	UV Therapy in Atopic Dermatitis	201
27.1.2	Basic Principles of UV Therapy: Photobiological Basis	197	27.2.5	Broader Spectrum of Dermatological Conditions	201
27.1.3	Types of UV Therapies	198	27.3	Special Considerations in Pediatric Dermatology	201
27.1.4	Delivery Methods in UV Therapy	198	27.4	Safety and Side Effects	201
27.2	Clinical Applications of UV Therapy	198	27.4.1	Safety Profile of UV Therapies	201
27.2.1	Role of UV Therapy in Managing Psoriasis	198	27.4.2	Common and Rare Side Effects	201
27.2.2	Effectiveness of PUVA and NBUVB in Vitiligo Repigmentation	199	27.4.3	Guidelines for Patient Monitoring and Management	202

27.5	Advancements in UV Therapy	202	27.5.2	Innovations and Targeted Approaches.....	203
27.5.1	Overview of Ongoing Research in UV Therapy.....	202	27.5.3	Potential Future Applications and Technological Innovations.....	204
			27.5.4	Antimicrobial Photodynamic Therapy and Clinical Guidelines... ..	204

Part V: Dermoscopy and Dermatopathology

28	Dermoscopy Algorithms	209			
	<i>Phillip S. Ang and Arlene Ruiz de Luzuriaga</i>				

28.1	Introduction	209	28.4	Triage Amalgamated Dermoscopic Algorithm	214
28.2	Clinical Uses of Dermoscopy	209	28.4.1	First Step.....	214
28.3	Two-Step Algorithm	209	28.4.2	Second Step.....	214
28.3.1	First Step.....	209	28.4.3	Third Step.....	214
28.3.2	Second Step.....	214	28.5	Conclusion	215

29	How to Use a Microscope and Essential Dermatopathology Terminology/Concepts	217			
	<i>Marina Kristy Ibraheim and Ashley Elsensohn</i>				

29.1	The Strengths and Limitations of the Microscope	217	29.3	How to Use the Microscope: Practical Tips	218
29.2	Anatomy of the Microscope and How to Use It	217	29.4	Essential Dermatopathology Terms and Concepts	218
				Suggested Readings	220

30	High-Yield Dermatopathology Differentials by Histologic Category	221			
	<i>Sujitha Yadlapati</i>				

Part VI: Surgical Dermatology

31	Fundamental Anatomy	233			
	<i>Sagar Patel, Tyler Marion, Karl Hoegler, and Sailesh Konda</i>				

31.1	Fundamental Anatomy	233	31.1.3	Sensory Innervation of the Head and Neck, Hands, and Feet.....	233
31.1.1	Skin Lines.....	233	31.1.4	High-Yield Arterial Supplies.....	234
31.1.2	Motor Innervation of the Head and Neck.....	233	31.1.5	Venous System of Head and Neck.....	238
			31.1.6	Lymphatic System of the Face....	238

31.1.7	Undermining Planes	238	31.1.8	Superficial Musculoaponeurotic System.	238
32	Facial Danger Zones	240			
	<i>Alexandra Lawlor and Mary Pentel</i>				
32.1	Layers of the Face	240	32.3	Vascular Danger Zones	243
32.2	Facial Nerve Danger Zones	240	32.3.1	Glabella Area	243
32.2.1	Temple/Lateral Brow Area (Frontal Branch of Facial Nerve).	241	32.3.2	Temple Area	244
32.2.2	Region Lateral to the Zygomatic Eminence (Zygomatic Branch of Facial Nerve).	242	32.3.3	Nasal Area.	245
32.2.3	Border of the Mandible (Marginal Mandibular and Cervical Branches of Facial Nerve)	243	32.3.4	Infraorbital Area	245
			32.3.5	Nasolabial Area	246
			32.3.6	Perioral Area	246
33	Anesthesia	248	32.4	Safety Principles for Injecting Fillers	247
	<i>Aleksi J. Hendricks and Sheila Z. Farhang</i>				
33.1	Mechanism and Structure	248	33.4.1	Epinephrine	250
33.2	Ester and Amide Anesthetics	248	33.4.2	Sodium Bicarbonate	250
