Table of Contents

1 Introduction 1

- **Definitions** 1
- **Epidemiology** 1
- **Pathology** 2
- **Pathophysiology** 2
  - Biological Behavior 3
  - Metastatic Disease 3
- **Genetics** 3
  - Mutation Types 4
  - Clinical Presentation of Familial Paraganglioma Syndromes 4
  - Summary and Management Recommendations 5
- **Historical Overview** 5

2 Surgical Anatomy 12

- **The Jugular Foramen: An Overview** 12
  - Bony Margins of the Jugular Foramen 12
  - Internal Anatomy 12
  - Lateral Relationships 15
  - Superior Relationships 16
  - Anterior Relationships 17
  - Medial Relationships 17
  - Inferior Relationships 17
  - Posterior Relationships 19
- **The Temporal Bone** 19
  - Significant Structures 19
- **Intradural Anatomy** 20
  - Lower Cranial Nerves 20
  - Hypoglossal Nerve 20
  - Posterior Inferior Cerebellar Artery 21
  - Anterior Inferior Cerebellar Artery 21
  - Facial and Cochleovestibular Nerves 21
- **Brainstem Arrangement and Jugular Fossa Arrangement of the Lower Cranial Nerves** 21
- **Anatomy of the Vertebral Artery** 22
  - Extradural Segments 22
  - Intradural Segment 23
- **The Anterolateral Neck** 24
  - Neurovascular Anatomy Pertaining to Carotid Body Tumors 24
  - Vagus and Hypoglossal Nerves 25

3 Radiological Anatomy 29

- **CT and MRI** 29
  - Axial CT, Bone Windows 30
  - Coronal CT, Bone Windows 34
  - Axial Heavily Weighted T2 MRI 36
  - Axial T1 Gadolinium-enhanced MRI 39
  - T1 MRI Coronal View 41
- **Angiography** 42
  - External Carotid Artery 42
  - Internal Carotid Artery 51
  - Radiological Anatomy of the Vertebral Artery 55
  - Radiological Anatomy of the Circle of Willis 62
  - The Craniocervical Venous System 63

4 Clinical Presentations and Diagnostic Work-up 73

- **Tympanojugular Paragangliomas** 73
  - Clinical Presentation 74
  - Diagnostic Work-up 75
- **Cervicocarotid Paragangliomas** 90
  - Clinical Presentation 90
  - Diagnostic Work-up 90

5 Treatment Options and Decision Making 98

- **Solitary Lesions** 98
  - Tympanic and Tympanomastoid Paragangliomas 98
  - Tympanojugular Paragangliomas 99
  - Vagal Paragangliomas 100
  - Carotid Body Tumors 104
- **Multiple Lesions, Paraganglioma Syndromes, and Confirmed Genetic Defect** 105
- **Management of Metastatic Disease** 105
- **Postoperative Follow-up** 106
- **Management of Recurrence** 106
- **Unresectable Tumors** 106
- **Subtotal versus Total Removal** 106
- **Indications for Radiotherapy** 106
- **Wait and Scan** 107
- **Summary of Major Surgical Considerations in Tympanojugular Paraganglioma** 107

aus: Sanna u. a., Microsurgery of Skull Base Paragangliomas (ISBN 9783131486110) © 2013 Georg Thieme Verlag KG

6 Interventional Neuroradiology 111

- **Embolization of Paragangliomas** . . . 111
  - General Principles of Embolization in Paragangliomas . . . 111
  - Embolization of Tympanic, Tympanomastoid, and Tympanojugular Paragangliomas . . . 112
  - Embolization of Carotid Body Tumors . . . 113
  - Embolization of Vagal Paragangliomas . . . 113
  - The Role of Direct Puncture in Embolization of Paragangliomas . . . 120
- **Interventional Neuroradiological Management of the Internal Carotid Artery** . . . 120
  - Preoperative Neuroradiological Assessment . . . 120
  - Permanent Occlusion of the Internal Carotid Artery . . . 125
  - Preoperative Stenting of the Carotid Artery . . . 132
- **Interventional Neuroradiological Management of the Vertebral Artery** . . . 138
  - Preoperative Neuroradiological Evaluation . . . 138
  - Preoperative Permanent Endovascular Occlusion of the Vertebral Artery . . . 141

7 Preoperative Preparation, Patient Care, and Nerve Monitoring 146

- **Anesthetic Techniques in Neuro-otologic Surgery** . . . 146
- **Blood Component Therapy** . . . 146
- **Operating Room Setup, Instruments, and Patient Care** . . . 146
  - Operating Room Setup . . . 146
  - Instruments . . . 149
  - Postoperative Care . . . 152
- **Lower Cranial Nerve and Facial Nerve Monitoring** . . . 154
  - Lower Cranial Nerve Monitoring . . . 154
  - Facial Nerve Monitoring . . . 155
  - Instrumentation . . . 155

8 Surgical Management of Class A and B Tumors 160

- **Preoperative Considerations** . . . 160
- **Surgical Steps** . . . 163
  - Class A1 Tumors . . . 163
  - Class A2 Tumors . . . 164
  - Class B1 and B2 Tumors . . . 166
  - Class B3 Tumors . . . 168
- **Clinical Cases** . . . 170
  - Case 8.1: Class A1 Paraganglioma (right ear) . . . 170
  - Case 8.2: Class A2 Paraganglioma (left ear) . . . 174
  - Case 8.3: Class B1 Paraganglioma (right ear) . . . 183
  - Case 8.4: Class B2 Paraganglioma (left ear) . . . 192
  - Case 8.5: Class B2 Paraganglioma with Poor Hearing (left ear) . . . 196
  - Case 8.6: Class B3 Paraganglioma (right ear) . . . 205
  - Case 8.7: Class B3 Paraganglioma (right ear) . . . 211
  - Case 8.8: Class B3 Glomus Tumor (right ear) . . . 216

9 Surgical Management of Class C1–C4 Tumors 226

- **Principles of the Approach to the Jugular Foramen** . . . 226
  - Arguments against “Conservative” Approaches to the Jugular Foramen . . . 226
- **The Gruppo Otologico Approach to Tympanojugular Paragangliomas** . . . 227
  - Infratemporal Fossa Approach Type A . . . 228
  - Extensions of the Infratemporal Fossa Approach Type A . . . 234
- **Clinical Cases** . . . 254
  - Case 9.1: Class C1 Tumor, Fallopian Bridge Technique . . . 254
  - Case 9.2: ITFA with Transcondylar Extension . . . 261
  - Case 9.3: Multiple Paragangliomas . . . 290
  - Case 9.4: Single-stage Removal of Tumor with Small Intradural Extension (C2Di1) . . . 301
  - Case 9.5: Staged Removal in a Complex Case with a Class C3Di2 Tympanojugular Paraganglioma, Stage I Vagal Paraganglioma, and Sacrifice of the Internal Carotid Artery . . . 316
  - Case 9.6: ITFA with Transcondylar Extension . . . 336
- **Summary of Surgical Management of Tympanojugular Paraganglioma** . . . 343

10 Surgical Management of Vagal Paragangliomas 347

- **Anatomy** . . . 347
- **Pathophysiology** . . . 347
- **Diagnostic Tools** . . . 347
- **Decision Making** . . . 348
  - Indications for Radiotherapy . . . 349
  - Degree of Extension at Diagnosis . . . 349
- **Preoperative Considerations** . . . 351
- **The Surgical Approach** . . . 351
  - Gruppo Otologico Approaches to the Upper Parapharyngeal Space . . . 351
  - Other Approaches . . . 351
- **Postoperative Management** . . . 352
- **Clinical Cases** . . . 352
  - Case 10.1: Bilateral Vagal Paragangliomas (Fisch Stage Im) with Transcervical Approach . . . 352
  - Case 10.2: Left Vagal Paraganglioma (Fisch Stage II)+ Left Carotid Body Tumor (Shamblin Stage I) with ITFA . . . 360
  - Case 10.3: Vagal Paraganglioma (Fisch Stage I) with Internal Carotid Artery Stenting and Transcervical Approach . . . 368
  - Case 10.4: Follow-up Case (Right Vagal Paraganglioma Fisch Stage I and Left Tympanojugular Paraganglioma Class C2) . . . 375
  - Case 10.5: Atypical Vagal Paraganglioma . . . 379

11 Management of Complex Tympanojugular Paragangliomas 397

- **Perioperative Complicating Factors in Complex Tympanojugular Paragangliomas** 397
  - Large Size 397
  - Large Intradural Extension. 397
  - Extension to the Cavernous Sinus, Clivus, or Foramen Magnum 398
  - Involvement of the Internal Carotid Artery 399
  - A Single Internal Carotid Artery on the Lesion Side. 400
  - Involvement of the Vertebral Artery 401
  - Dominant or Unilateral Sigmoid Sinus on the Lesion Side 401
  - Bilateral or Multiple Paragangliomas 402
  - Recurrence after Previous Surgery, Radiotherapy, or Stereotactic Radiosurgery 402
- **Clinical Cases**. 404
  - Case 11.1: Two Staged Removals (ITFA, MTCA) after Permanent Balloon Occlusion with Class C3Di2vi Tympanojugular Paraganglioma 404
  - Case 11.2: Two Staged Removals (ITFA with Transcondylar Transtubercular Extension, MTCA) after Permanent Balloon Occlusion with Class C3Di2 Tympanojugular Paraganglioma. . . 414
  - Case 11.3: Two Staged Removals with Class C3De2Di1 TJP after PBO. 429
  - Case 11.4: Four Staged Tumor Removals with Class C4Di2Vi after Stenting 437

12 Surgical Management of Carotid Body Tumors 455

- **Anatomy and Physiology of the Carotid Body** 455
- **Clinical Features and Pathology of Carotid Body Tumors** . . . 455
- **Diagnosis and Classification of Carotid Body Tumors** 456
  - Multiple Lesions 458
  - Malignancy 458
- **Preoperative Management**. 458
- **Surgical Management (Surgical Steps of CBT Resection)** . . . 459
  - Transcervical Approach 459
  - Retroauricular–Transmastoid–Transcervical Approach (Modified Fisch Infratemporal Fossa Approach) 460
  - Tumor Dissection 462
  - Managing Carotid Artery Injury and Grafting Techniques 462
- **Surgical Results and Assessments**. 462
- **Postoperative Management**. 463
- **Alternative Management** 463
  - Conservative or Wait and Scan 463
  - Radiotherapy 463
- **Clinical Cases**. 464
  - Case 12.1: With Shamblin I CBT 464
  - Case 12.2: With Shamblin II CBT. 466
  - Case 12.3: With Bilateral Shamblin type III CBTs. Staged Removal of Bilateral Tumor 469

13 Facial Nerve Management in Paraganglioma Surgery 489

- **Identification of the Facial Nerve: Key Anatomical Points** . . 490
  - Intratemporal 490
  - Extratemporal. 490
- **Facial Nerve Management Based on the Fisch Classification** 491
  - Facial Nerve Management in Classes A1 and A2 Tumors 491
  - Facial Nerve Management in Class B1 Tumor 491
  - Facial Nerve Management in Class B2 Tumor 491
  - Facial Nerve Management in Class B3 Tumor 492
  - Facial Nerve Management in Class C1–C4 Tumors 492
- **Facial Nerve Management Based on the Degree of Tumor Involvement** 492
  - Fallopian Bridge Technique 493
  - Mobilization of the Facial Nerve 495
- **Clinical Cases**. 497
  - Case 13.1: Fallopian Bridge Technique for Class C1 Tumor. 497
  - Case 13.2: Anterior Rerouting of the Facial Nerve in Infratemporal Fossa Approach Type A for Class C2 Tumor 502
  - Case 13.3: Anterior Rerouting of the Facial Nerve in Infratemporal Fossa Approach Type A for Class C2 Tumor 507
  - Case 13.4 Anterior Rerouting of the Facial Nerve for Class C2 Tumor Engulfing it. 511
  - Management of the Involved Facial Nerve. 515
  - Case 13.5: Transection of the Involved Segment of the Facial Nerve 516
  - Grafting of the Facial Nerve 518
  - Case 13.6: Facial Nerve Grafting with the Sural Nerve for Class C1 Tumor. 521
  - Case 13.7: Facial Nerve Grafting with the Sural Nerve for Malignant TTP 528
  - Case 13.8: Facial Nerve Grafting with the Sural Nerve for Class C2 Tumor. 532
  - Case 13.9: Facial Nerve Grafting with a Sural Nerve for Class C2De1 536
  - Case 13.10: Facial Nerve Grafting with a Sural Nerve for Class B3 Tumor. 539
  - Facial–Hypoglossal Anastomosis 550

14 Management of the Internal Carotid Artery 555

- **Surgical Anatomy**. 555
- **Angiographic Anatomy**. 564
- **Preoperative Assessment and Management of the Internal Carotid Artery** 564
  - Indications for Presurgical Management of the Internal Carotid Artery 564
  - Permanent Balloon Occlusion. 564
  - Intra-arterial Stenting 566
- **Arterial Control / Exposure of the Internal Carotid Artery** . . 567
  - Arterial Control 567
  - Exposure of the Internal Carotid Artery 567

aus: Sanna u. a., Microsurgery of Skull Base Paragangliomas (ISBN 9783131486110) © 2013 Georg Thieme Verlag KG

- **Management of Tumor Involvement of the Internal Carotid Artery** . . . 570
  - Decompression . . . 571
  - Decompression with Partial Mobilization . . . 571
  - Subperiosteal/Subadventitial Dissection and Anterior Mobilization without Stent . . . 571
- **Clinical Cases** . . . 572
  - Case 14.1: Subperiosteal Dissection of the Internal Carotid Artery for Class C2 Tumor . . . 572
  - Case 14.2: Subadventitial Dissection of the Internal Carotid Artery for Class C2 Tumor . . . 575
  - Case 14.3: Subadventitial Dissection of the Internal Carotid Artery for Class C3 Tumor . . . 577
  - Subadventitial Dissection after Reinforcement with Stent . . . 580
  - Case 14.4: Subadventitial Dissection of the Internal Carotid Artery for Class C3 Tumor . . . 581
  - Case 14.5: Subadventitial Dissection of the Internal Carotid Artery after Stent Insertion for Class C3Di2 Tumor . . . 587
  - Case 14.6: Subadventitial Dissection of the Internal Carotid Artery after Stent Insertion for Class C4Di2Vi Tumor . . . 592
  - Case 14.7: Subadventitial Dissection of the Internal Carotid Artery after Stent Insertion for Class C3Di2Vi Tumor . . . 598
  - Dissection and Resection after Permanent Balloon Occlusion . . . 606
  - Case 14.8: Resection of the Internal Carotid Artery after Permanent Balloon Occlusion for Class C3Di2 TJP and Stage I VP . . . 608
- **Intraoperative Internal Carotid Artery Injury** . . . 615

15 Management of the Large Intracranial and Extracranial Veins 617

- **Intraoperative Management** . . . 617
- **Potential Problems with Dural Sinus and Jugular Vein Closure** . . . 622

16 Management of the Lower Cranial Nerves 623

- **Maximizing the Preservation of Lower Cranial Nerves** . . . 624
- **Clinical Cases** . . . 624
  - Case 16.1: Intrabulbar Dissection to Preserve Lower Cranial Nerve Function . . . 624
  - Case 16.2: Infralabyrinthine Dissection . . . 625
  - Case 16.3: Intrabulbar Dissection . . . 627
  - Case 16.4: Intrabulbar Dissection . . . 630
  - Case 16.5: Sacrifice of the Involved Intradural Lower Cranial Nerves . . . 631

17 Management of Intradural Tumor Extension 633

- **Clinical Case** . . . 634
  - Case 17.1: One-Stage Procedure for Class C1Di1 Tumor . . . 634
- **MR Image Comparison Before and After the First Stage Surgery** . . . 640
- **Rationale for Staging** . . . 641
- **Clinical Case** . . . 642
  - Case 17.2: Second-Stage Procedure for Class C2Di2 Tumor . . . 642
- **Techniques of Intradural Dissection** . . . 647
- **Clinical Case** . . . 647
  - Case 17.3 . . . 647
  - Skull Base Reconstruction . . . 653
- **The Order of Resection: Intradural or Extradural Tumor First in Single-Stage Resections or Staged Procedures** . . . 653
- **Important Factors at Initial Surgery to Minimize Recurrence** . . . 654

18 Management of Tumors Involving the Vertebral Artery 656

- **Preoperative Evaluation and Treatment** . . . 656
- **Surgery** . . . 656
  - Surgical Technique . . . 658
- **Clinical Cases** . . . 661
  - Case 18.1: Second-Stage Surgery after Preoperative Balloon Occlusion of the Vertebral Artery . . . 661
  - Case 18.2: Three-Stage Surgery after Preoperative Balloon Occlusion of the Vertebral Artery . . . 665
  - Case 18.3: Extreme Lateral Transcondylar Approach for Removal of the Remnant Intradural Tumor Around the Vertebral Artery . . . 672
  - Case 18.4: Modified Transcochlear Approach Type D . . . 677

19 Postoperative Care and Management of Complications 681

- **Perioperative Management** . . . 681
  - Management of CSF Leakage . . . 681
- **Postoperative Medication and Discharge** . . . 681
- **Rehabilitation of Cranial Nerve Deficits** . . . 682
  - Facial Nerve . . . 682
  - Lower Cranial Nerves . . . 683
  - Hearing Rehabilitation . . . 684
- **Long Term Follow-up** . . . 684

aus: Sanna u. a., Microsurgery of Skull Base Paragangliomas (ISBN 9783131486110) © 2013 Georg Thieme Verlag KG

20 Treatment Planning of Pharyngolaryngeal Surgery for Iatrogenic Complications following High Vagal Injury 685

- Surgical Anatomy of the Vagus Nerve in the Skull Base and Upper Neck 685
- Pharyngolaryngeal Pathophysiological Changes following High Vagal Injury 685
- Clinical Assessment of Pharyngolaryngeal Disorders after High Vagal Injury 686
- Therapeutic Options 687
- Conclusions 689

Index 691
